This ended up being ALOT better than expected and it's also really easy to play, just throw down a shock mote and your helminthÂ ... really stuck out as noticeable and fun. Expect some more in the future. Security bypass could help ALOT but i was kinda just chilling in the corner more gameplay Sunday. Don't forget to get BOTH. New nightwave starting in about 3 weeks, it's actually going to be called SHOCKWAVE instead this time so keep an eye out for it. After this new tweet I am convinced she is getting nerfed with almost 0 chance that it won't happen. A bummer since I was hoping. Tau update is looking VERY JUICY they are claiming there will be 2 zones at launch with a ton more being added in the future. The trailer was super hype! I'm interested in what is happening with the "2" new warframes but proto garuda and ash looks so good. Nitain is terrible to farm and descendia has not amazing loot seems like a easy double solution to me! The aya idea I didn't. 2 Steel essence in 2 hours? Now that is a nerf for the history books! Wow that was alot harder of a nerf than I was expecting, how. Why do I mention biotic rounds and leaded gas? well as stated in the post they are returning nora volume 8 items and those are. This is going to become my most used primary over time, but it's only been out for a month so that is a slow process. As of right now.
